# Sewer Group 748

## Encanto

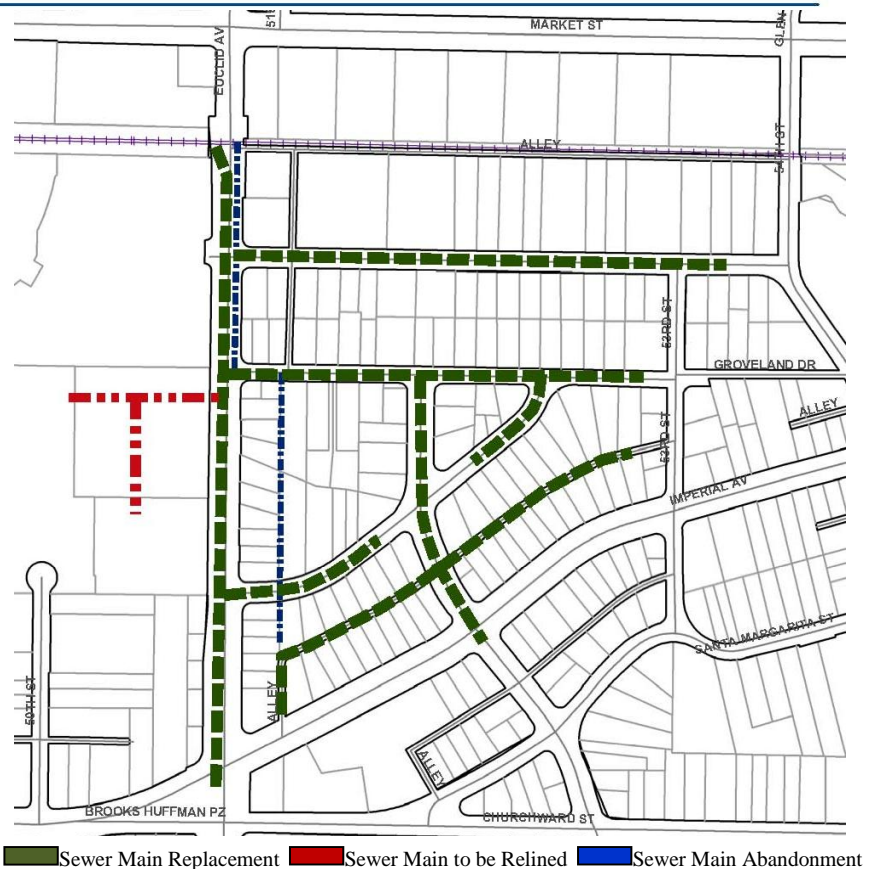

### Background

Sewer Group 748 is part of the City of San Diego's ongoing program that mandates the replacement and rehabilitation of all aging and deteriorating sewer mains.

This project will upgrade the sewer system to meet anticipated future peak flows, meet current design standards and comply with EPA environmental requirements.

### Project Overview

The project consists of improving approximately 8,500 linear feet of sewer main. These improvements involve replacing, relining and relocating the sewer main as indicated on the map.

The majority of the existing sewer is located on Euclid Ave, Naranja St, Groveland Dr, Castana St, San Jacinto Dr, Imperial Ave, and an alley between Imperial Ave and Castana St. The project also includes work in sewer easements along private properties between Groveland Dr. and Castana St, and City easements located through the Euclid Medical Center.

Sewer Group 748 will also replace and replumb sewer laterals, install manholes, install curb ramps and resurface the street.

### Construction Schedule and Cost

Construction is estimated to begin spring 2011 and complete by winter 2011. Residents within the construction area will be properly notified before construction begins.

The total cost of the project is approximately \$2.7 million.

### Additional Information

Additional information about this and other important infrastructure projects can be found online at [www.sandiego.gov/engineering-cip](http://www.sandiego.gov/engineering-cip), or by calling the public information line at (619) 533-4207.
